

WHAT IS CLAIMED IS :

1. A front end part (7) for the engine hood (3) of a vehicle, the part being made of a deformable plastics material and including means (8) for fixing it to an engine hood (3) so as to extend the hood towards the front of the vehicle, in such a manner that said end part (7) accompanies the hood (3) when it is opened.
2. An end part (7) according to claim 1, characterized in that it forms at least a part of the shield (5) of the vehicle.
3. An end part (7) according to claim 1 or claim 2, characterized in that it integrates at least a portion of the front light units of the vehicle.
4. An end part (7) according to any one of claims 1 to 3, characterized in that it includes a strength member (8) forming the means for fixing it to the hood (3).
- 20 5. An end part (7) according to claim 4, characterized in that the strength member (8) forms a support for at least a portion of the front light units of the vehicle.
- 25 6. An end part (7) according to claim 4 or claim 5, characterized in that the strength member (8) includes an impact absorber (20).
- 30 7. An end part (7) according to any one of claims 1 to 6, characterized in that it includes an air intake (10) forming at least a portion of a radiator grille (11).
- 35 8. A motor vehicle front face (2) including a hood (3), a bumper (4), and an end part (7) according to any one of claims 1 to 8.

9. A front face (2) according to claim 8, characterized in that said end part (7) forms at least a portion of the shield (5) of the bumper (4).

5 10. A front face (2) according to claim 9, characterized in that the bumper (4) includes a spoiler (6) disposed beneath the end part (7), and in that slamming clearance (J) is provided between the end part (7) and the spoiler (6).
